Steelcut Trio 2

90% new wool, 10% nylon

49 colours

140 cm wide

Design: Frans Dijkmeijer and Giulio Ridolfo

Steelcut Trio 2

Steelcut Trio 2 is a hardwearing upholstery textile, which has the same construction as *Steelcut 2*. Designed by Frans Dijkmeijer and coloured by Giulio Ridolfo, it is now available in a wider choice of colours.

Like *Steelcut 2*, *Steelcut Trio 2* features an innovative weave, which gives the fabric a three-dimensional surface resembling small pyramids or steel points and, despite the complexity of the weave, a simple and precise expression.

The difference between *Steelcut Trio 2* and *Steelcut 2* lies in the way they are coloured. Unlike *Steelcut 2*, *Steelcut Trio 2* is yarn-dyed and made from 3 differently coloured yarns, often with very bright tones on the warp and lighter tones on the weft. This combination not only accentuates the three dimensional character of the weave, it also adds life to the fabric: though it looks unicoloured from a distance, different shades are revealed as the viewer gets nearer.

The colour scale of *Steelcut Trio 2* consists of 49 colours, 24 of which were added in 2011. Giulio Ridolfo designed these shades by exploring the complex visual effects created by working with three different coloured yarns.

The new palette explores *'the beauty and intensity'* of the fabric, and includes fresh whites, neutral skin tones, glassy light blues, terracotta, clay, dark indigos and unpredictable blacks. Giulio Ridolfo: *'I concentrated on the most "iridescent" aspects of light, as I was looking for a rainbow effect. I paid particular attention to making every colour nuance vibrant.'*

Tricoloured *Steelcut Trio 2* combines well with unicoloured *Steelcut 2*. For example, upholstering a chair with *Steelcut 2* on the seat and *Steelcut Trio* on back creates a particularly bold and contemporary look.

Acclaimed Dutch designer Frans Dijkmeijer is considered one of Europe's foremost designers of woven textiles. He is famed for his ability to create textiles that exude simplicity and elegance despite the high technical complexity of their weave.

Giulio Ridolfo has many years experience as a textile advisor to the clothing, footwear and interiors industries. His working method has been compared to a patchwork quilt, where he gathers and juxtaposes small fragments of real life in the form of images, colours, patterns and textures. He strives to retain the *'colour vibes'* by adapting them into usable colour palettes without losing their original vibrant characteristics.

Önorm B1/Q1

SN 198 898 5.3 with treatment

UNI 9175 1IM

US Cal. Bull. 117-2013

No use of brominated flameretardants

Quality benefits

Very good abrasion

Good lightfastness

Flame retardant

Benefits of wool

Wool is a renewable resource

Wool is very comfortable because of its ability to absorb/give off humidity

Wool is flame retardant

Wool is biodegradable

Wool is naturally soil resistant

Wool ages with grace

Environmental benefits

Complies with EU Ecolabel

No use of AZO dyes, which may split off carcinogenic acryl amines

No use of dyes containing heavy metals/ complies with ETAD norm

No content of formaldehyde

Not bleached

Biodegradable spinning oil

We adhere to the limits set by the Danish Environmental Protection Agency's 'List of undesirable substances'

Complies with REACH

Reduced emission

Greenguard and Greenguard Gold certified

Steelcut Trio 3

Design: Frans Dijkmeijer and Giulio Ridolfo

Type: upholstery

Composition: 90% new wool, 10% nylon

Yarn type: stapel, worsted

Binding: semi-plain

Width: 140 cm

Weight: app. 770 g/lin.m

Repeat: none

Cleaning: Vacuuming and dry cleaning

More info: Maintenance instruction—please see website

10 year warranty
